Substitute Employee Rate Increase Proposal

Attracting and retaining substitute employees to cover the absences of regular employees is a problem being faced by school districts across the country. Providing competitive compensation is a significant factor in the recruitment and retention of these employees. Recently several neighboring school districts have raised their daily and hourly rates to address this problem. For example, the San Lorenzo Unified School District currently pays substitute teachers \$170 per day (the SLUSD pays \$150) and indexes the hourly rates of classified substitutes, such as para educators, to their classified employee salary schedules. Accordingly, staff recommends the following substitute employee rate increase:

Current	Proposed
